

K-LOVE has a huge impact in my life and others all across the nation. If K-LOVE were to be taken off the air, it would be a great loss for those communities because of it's extremely positive message that helps people to focus on what is important instead of focussing on bad things like so much of the current public media. We need something that stands for God and stand for what is right and helps people to see what is right. If K-LOVE were taken off the air, some people wouldn't know where to turn for help when they are suffering, when they are thinking suicidal thoughts, when they just need someone to talk to. K-LOVE provides extremely helpful and needed services which include their ability to broadcast all over the nation. Please keep K-LOVE on the air!
